ENG At Reviglass, we have been providing high quality and elegant finishes to pools all around the world since 1985.

Our mosaic tile is produced in our installations located in the heart of Gipuzkoa (North of Spain) using **100% recycled glass** and our goal is to offer an easy-to-install and long-lasting product, ideal to cover all kinds of pools.

Pool Color Guide is a picture compilation of pools made with our mosaic tiles to serve as guidance and inspiration for new constructions and restorations. We invite you to note the wealth of shades produced by the depth of the pool, the environment, and the grout color.

ESP Desde 1985, en Reviglass ofrecemos acabados con estilo y calidad para piscinas de todo el mundo.

Nuestro mosaico está fabricado en nuestras instalaciones en el corazón de Gipuzkoa (Norte de España) utilizando un **100% de vidrio reciclado** como materia prima. El resultado es un material duradero y de fácil instalación, ideal para el revestimiento de todo tipo de piscinas.

Pool Color Guide es una recopilación de fotos de piscinas revestidas con nuestros mosaicos que tiene la intención de servir de guía e inspiración para nuevas construcciones y rehabilitaciones. Podrán comprobar en ellas la riqueza de matices que se generan en el color del agua por influencia de su profundidad, del entorno, y de la elección de la junta.

FR Depuis 1985, chez Reviglass, nous proposons des finitions élégantes et de qualité pour les piscines du monde entier.

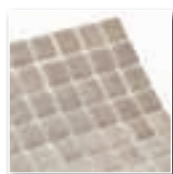

Notre mosaïque est fabriquée dans nos installations au cœur de Gipuzkoa (nord de l'Espagne) en utilisant du **verre 100% recyclé** comme matière première. Le résultat est un matériau durable et facile à installer, idéal pour l'habillage de tout genre de piscines.

Pool Color Guide est une collection d'images de piscines carrelées avec nos mosaïques qui est destinée à servir de guide et d'inspiration pour les nouvelles constructions et les rénovations. Vous pourrez y vérifier la richesse des nuances générées dans la couleur de l'eau en raison de l'influence de leur profondeur, de l'environnement et du choix du joint.

LUMINISCENT MOSAIC

Mosaico luminoso / Mosaïque lumineuse

LUMINIS_

ENG Discover the Luminis collection of glass mosaics, a captivating mix between art and architectural functionality. Each piece from this collection turns into a unique visual experience when it glows in the dark, thanks to an innovative technological advance that enables the tile to capture sunlight, artificial light or ultraviolet light.

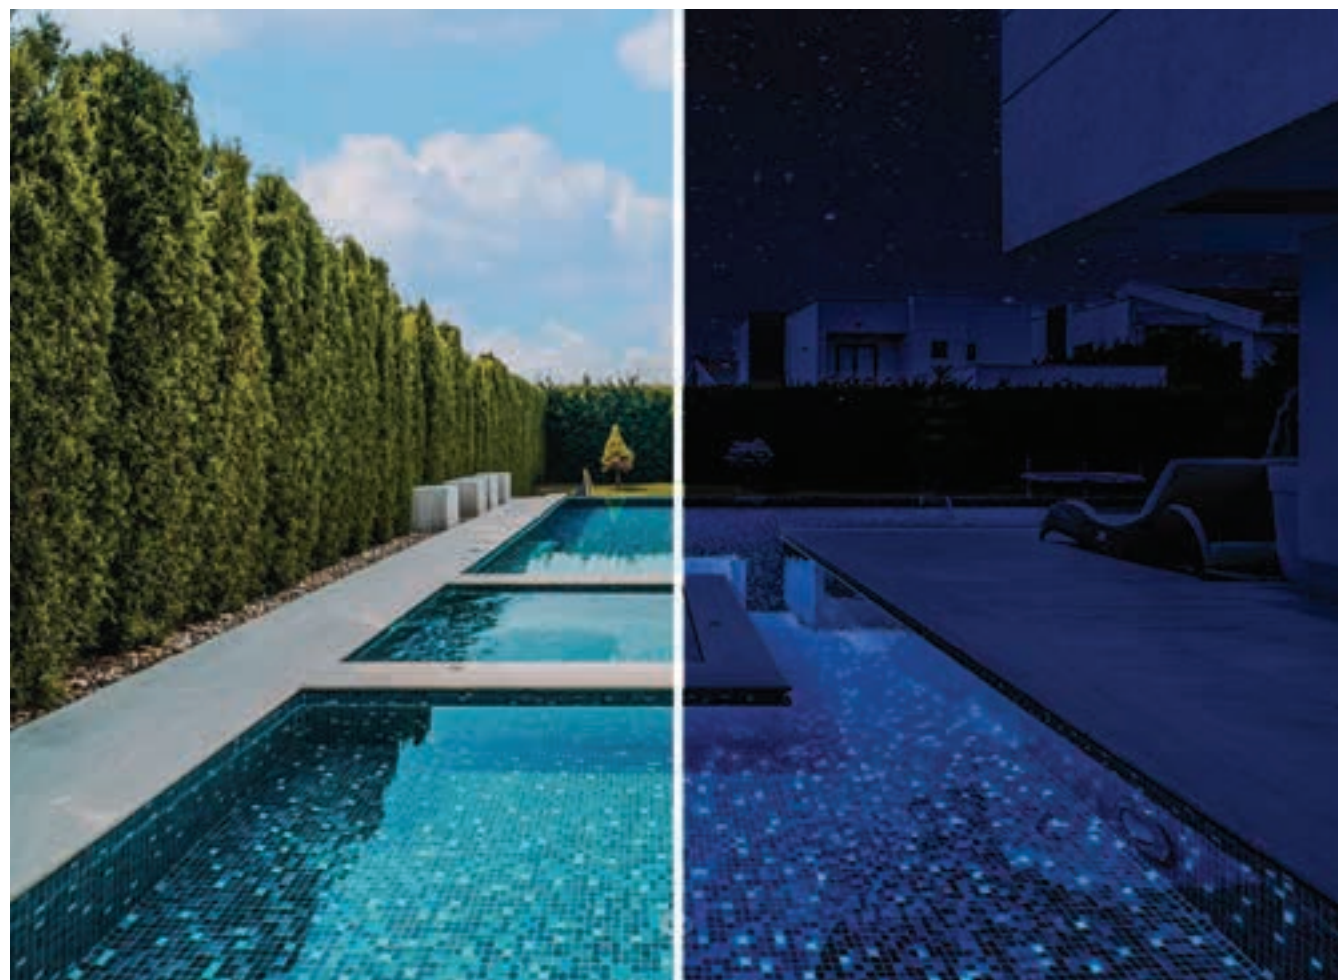

ESP Descubre la colección Luminis de mosaicos de vidrio, una fusión cautivadora de arte y funcionalidad en arquitectura. Cada pieza de esta colección se transforma en una experiencia visual única al iluminarse en la oscuridad, gracias a la aplicación de tecnologías innovadoras que capturan la luz solar, la luz natural o la luz ultravioleta.

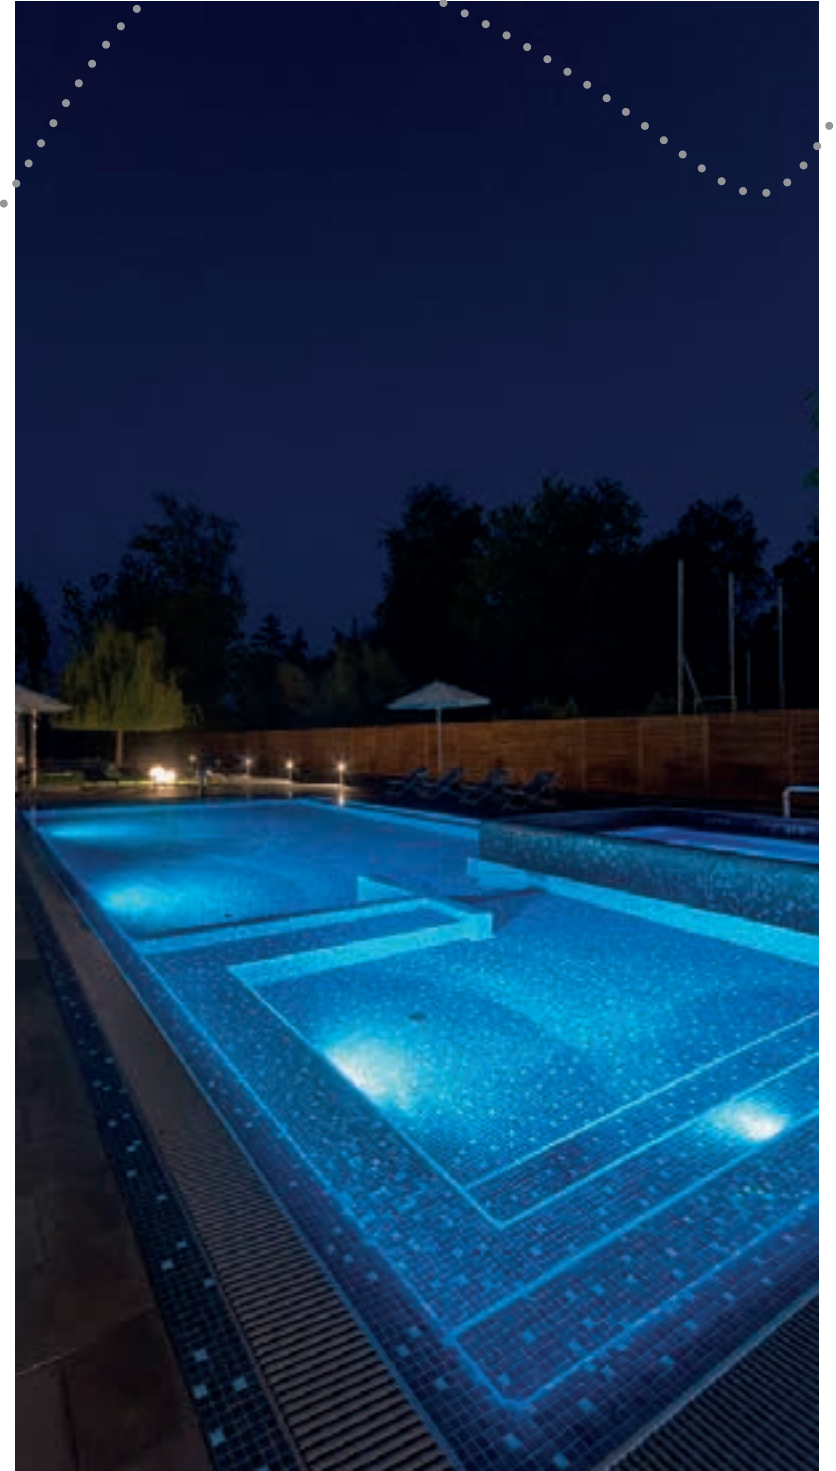

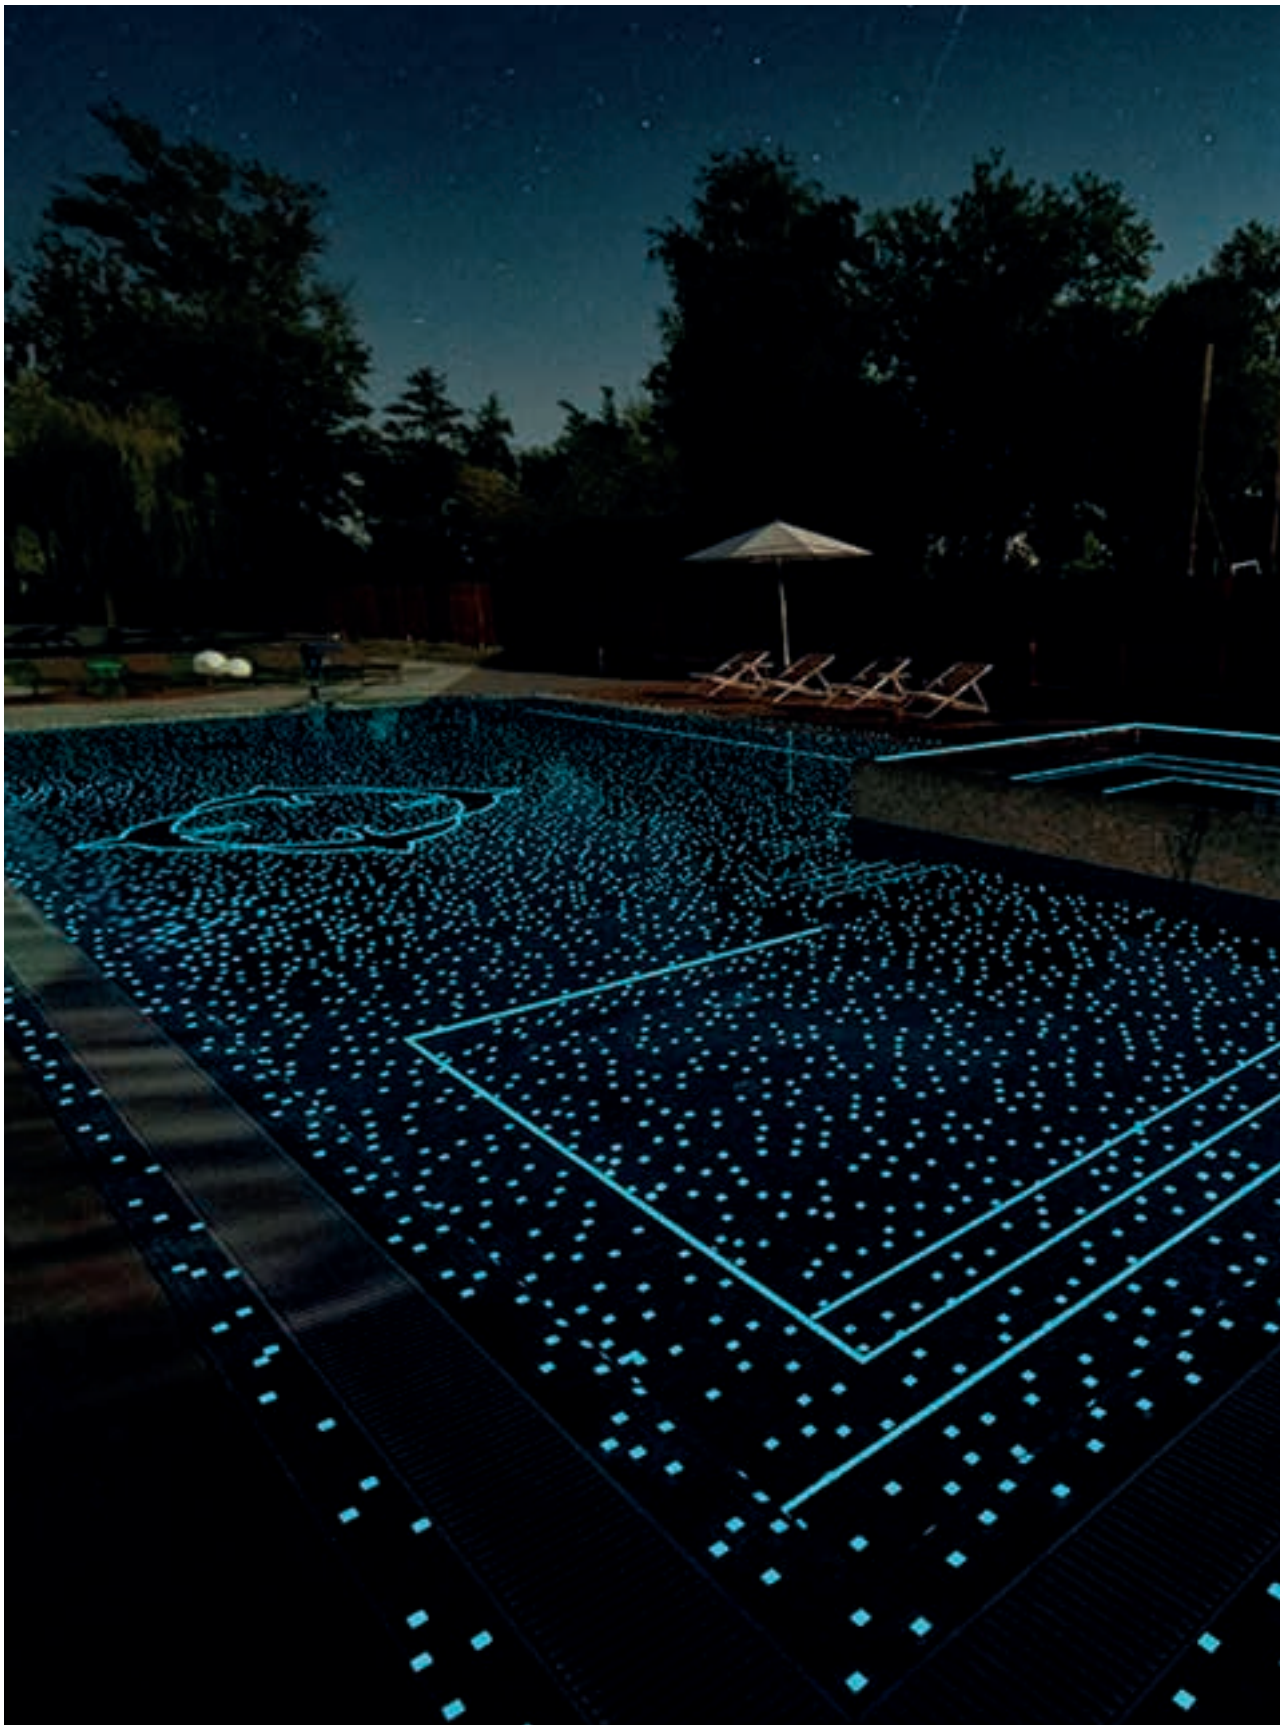

FR Découvrez la série Luminis de mosaïque de verre, une fusion captivante d'art et de fonctionnalité dans l'architecture. Chaque pièce de cette collection se transforme en une expérience visuelle unique lorsqu'elle s'illumine dans l'obscurité, grâce à l'application de technologies innovantes qui captent la lumière naturelle, artificielle ou ultraviolette.

ABOUT REVIGLASS

Sobre nosotros / À propos de nous

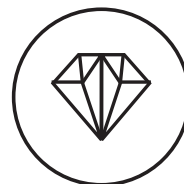

OUR ORIGINS

¿Quiénes somos? / Qui sommes-nous

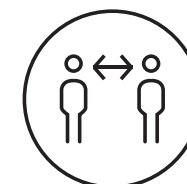

ENG Founded in 1985 and surrounded by mountains, in the highest town of Gipuzkoa, Reviglass arises from the collaboration between four partners with the aim of offering high quality glass mosaic coating, manufactured according to the values of ecology, innovation and excellence. Over the years and after producing millions of square meters, the essence of our company focuses on creating a close and familiar environment with our employees, clients, and suppliers.

ESP Fundada en 1985 entre montañas, en el pueblo más alto de Guipúzcoa, Reviglass surge de la colaboración entre cuatro socios con el objetivo de ofrecer revestimiento vitreo de gran calidad, fabricado según los valores de ecología, innovación y excelencia. A lo largo de los años y tras la producción de millones de metros cuadrados, la esencia de nuestra empresa persiste en la creación de un entorno cercano y familiar, tanto con nuestros empleados como con nuestros clientes y proveedores.

FR Fondée en 1985 au milieu des montagnes, dans la commune la plus haute de Guipúzcoa, Reviglass naît de la collaboration entre quatre partenaires dans le but de fournir aux marchés des mosaïques de verre de la plus haute qualité, fabriquées selon les valeurs d'écologie, d'innovation et d'excellence. Au fil des années et après avoir produit des millions de mètres carrés, l'essence de notre entreprise persiste dans la création d'un environnement proche et familial avec nos employés, nos clients, et nos fournisseurs.

ABOUT REVIGLASS

Sobre nosotros / À propos de nous

YOUR CHOICE

¿Por qué elegirnos? / Pourquoi nous choisir ?

ENG Beyond our commitment to ecology and customer service, our obsession is the quality of our mosaic. We strive daily to manufacture a uniform material and join the pieces with the maximum free surface on the back, thus ensuring a product of excellence.

ESP Más allá de nuestro compromiso con la ecología y la atención al cliente, la obsesión de Reviglass es la calidad de nuestro mosaico. Nos esforzamos diariamente en fabricar un material uniforme y unir las piezas con la máxima superficie libre en la parte posterior, asegurando así un producto de excelencia.

FR Au-delà de notre implication à l'égard de l'écologie et du service client, le souci de Reviglass est la qualité de sa mosaïque. Nous nous efforçons tous les jours de fabriquer un matériau uniforme et d'assembler les tesselles en laissant le maximum de surface libre à leur dos, pour garantir un produit supérieur.

NON-SLIP MOSAIC

Mosaico antideslizante / Mosaïque antidérapante

ANTISLIP_

ENG Reviglass has developed and patented an antislip technology, with which we are able to provide an antiskid finish to our glass mosaics, without losing the soft and silky touch of our tiles.

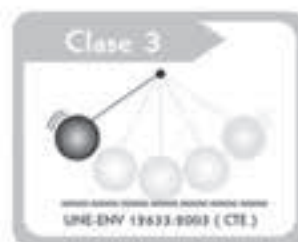

ESP Reviglass ha desarrollado y patentado la técnica con la que se obtienen unas superficies de muy altas prestaciones antideslizantes a la vez que conservan un agradable tacto sedoso.

FR Reviglass a développé et breveté la technique avec laquelle on obtient des surfaces aux hautes prestations anti-dérapantes tout en conservant un agréable toucher soyeux.

ENG 90-degree **glass mosaic** specially designed to be installed in right angle finishes, either steps or others, in order to provide a solution to the complicated areas of a swimming pool or bathroom.

ESP **Mosaico de vidrio** especialmente diseñado para ser colocado en esquinas, peldaños, escalones o zonas con ángulos de 90 grados con el fin de dar solución a las zonas complicadas de una piscina o baño.

FR Pièce spécialement conçue pour son utilisation dans des finitions en angle droit, soit des marches ou autres, et fournir une solution simple à des endroits compliqués des piscines ou salles d'eau.

POOL CONFIGURATOR

Configurador de piscinas / Configurateur de piscine

MY VIRTUAL POOL_

ENG La herramienta online My Virtual Pool permite elegir el color de la piscina de manera fácil y práctica desde la página web de Reviglass. Se trata de un simulador para probar nuestras referencias en un prototipo de piscina. Además, podremos cambiar el exterior de la piscina y comprobar cómo el color de la junta afecta al acabado final del mosaico, pudiendo elegir entre blanco, gris y negro.

ESP The online tool My Virtual Pool allows the selection of the color of the swimming pool in an easy and practical way from the Reviglass webpage. It is a simulator to test our references in a prototype of a swimming pool. Additionally, we can change the exterior of the swimming pool and see how the color of the grout affects the final look of the mosaic, being able to choose among white, grey and black grout.

FR L'outil en ligne My Virtual Pool permet de choisir la couleur de la piscine de manière simple et pratique depuis le site de Reviglass. Il s'agit d'un simulateur pour tester nos références dans un prototype de piscine avec ses différentes profondeurs. Cela permet aussi de changer l'entourage de la piscine et de vérifier la différence d'aspect) final de la mosaïque qui varie par la couleur du joint, à choisir entre le blanc, le gris et le noir.

ENG Building Information Modeling (BIM) is a digital working method that uses virtual digital 3D models as the basis for planning, designing, constructing, managing and operating projects. The 3D models contain more than just graphical information, allowing properties to be attached to each building component.

ESP Building Information Modeling (BIM) es una metodología de trabajo digital que utiliza modelos 3D digitales como base para planificar, diseñar, gestionar y construir proyectos. Los modelos 3D contienen más que solo información gráfica, permitiendo además adjuntar propiedades a cada componente del proyecto.

FR Le Building Information Modeling (BIM – modélisation des informations du bâtiment) est une méthode de travail numérique qui utilise des modèles numériques 3D virtuels comme base pour planifier, concevoir, construire, gérer et exploiter des projets. Les modèles 3D contiennent plus que de simples informations graphiques, permettant d'associer des propriétés à chaque élément de construction.
