PURE CRAFTMANSHIP

Be Inspired by Our landscape.
Be Inspired by UrbanStone

Our landscape has been crafted by time and shaped by the elements with iconic colours and enduring textures.

At UrbanStone our pavers and stone capture the natural beauty, timeless character and diversity of our far reaching land.

Locally sourced, sustainably made and Australian owned – we're intimately connected to the spirit that flows through our products and the destinations we help to create.

Commercial Collection Endless Possibilities

UrbanStone's Commercial collection has been crafted for large projects seeking a point of distinction. Made to your specifications, in custom colours, unique sizes and with a finish selected to suit your project or design.

UrbanStone can provide a long lasting statement with intricate detail, to create aspirational designs that define the landscape, or make stronger connections to places through meaningful stories. Tap into its unlimited potential.

Product – Australian Granite | Austral Juperana.
Project – Yagan Square
Architects – Lyons, IPH Architects, Aspect Studios
Artist – John Tarry

The Benefits

UrbanStone paving has all the right qualities for any project of distinction.

1.

Easy to install

Crafted with outstanding dimensional accuracy, our pavers are easier, simpler and quicker to install.

2.

Low maintenance

When you build with UrbanStone products, you're working with the highest quality material that requires minimal maintenance.

3.

Long lasting

Our entire paving collection offers outstanding longevity, so the products you install today will look stunning for years to come.

4.

Slip resistance

Selected product ranges offer excellent slip resistance which makes them perfect for applications in wet areas like pools.

5.

Environmentally aware

We've designed our production processes to minimise impact on the environment, ensuring they do not deplete precious natural resources.

6.

Superior strength

UrbanStone products have great strength and are extremely durable. They can endure significant abrasion from external forces with minimal, if any deterioration.

7.

Australian Made

Our pavers are manufactured in Perth using locally sourced materials. We are also one of the few suppliers of Australian granites and marbles.

Commercial UrbanStone Pavers

Crafted in custom made colours, finishes
and sizes to suit your design, our pavers are
made for you.

Commercial Pavers by UrbanStone

Creating a commercial paver involves 4 simple steps.

1.

Select your Colour

Every paver starts with one base colour.

To select the colour for your paver you can select from existing examples, bring us an example to match, or visit our Brickworks Design Studios for a complementary colour consultation.

2.

Select your Aggregate

UrbanStone source the finest aggregates, with a selection captured from across Australia.

You can choose just one aggregate to use, or mix and match with various aggregates for a truly unique design.

3.

Select your Finish

Our finish selection includes: shot blast, milled, honed and honed shot options.

Each finish will have notable impact on the appearance of the paver, by exposing aggregate or adding a subtle sheen to the surface finish. Finish selections also have a notable impact on slip ratings.

4.

Select your Size

We offer an extensive range of sizes and thicknesses to suit various designs and applications.

To explore the sizes and thickness options available please see page 28 of this brochure or contact your local UrbanStone representative.

Commercial Natural Stone

Our Australian granites and marbles are created by nature and refined by UrbanStone with a range of colours sourced from the Australian landscape.

Each Natural Stone product is custom made in virtually any size you can think of, with natural, locally sourced colours and a plethora of finishing options available to suit your design.

- Australian Granite p²⁴
- Endurastone p²⁶

Commercial Natural Stone by UrbanStone

Creating a commercial natural stone product involves 3 simple steps.

1.

Select your Colour

UrbanStone a selection of Australian granites and marbles with eye catching, natural colours.

To make your selection you can choose from the colours on pages 24 to 26 or visit our Brickworks Design Studios for a complementary colour consultation.

2.

Select your Finish

Our finish selection varies between granite and marble and includes: exfoliated, honed, honed shot and polished options.

Each finish will have notable impact on the appearance of the paver and can add a subtle sheen to the surface finish. Finish selections also have a notable impact on slip ratings.

3.

Select your Size

We offer an extensive range of sizes and thicknesses to suit various designs and applications.

To discuss the sizes and thickness options available please contact your local UrbanStone representative.

- Paving Accessories p²⁸

Paver Edge Finishes

Edge finishes

Whatever landscape design you have in mind, we can provide you with an edge finish that works. We have a standard range, and if there's a unique edge design that you're after to complete your project, feel free to contact one of our local UrbanStone professionals for a consultation.

Full Nose

Square Edge

Half Nose

Chamfered Edge

Stair treads

Stair treads are designed to match your UrbanStone paving. They're located at the front of the horizontal portion of a set of stairs and are commonly used to reduce slippage, particularly in commercial or industrial locations. We have standard options, and we can also provide custom solutions to suit your project.

Paving Accessories

—

Dual step treads

Stylish dual colour step treads provide maximum nosing visibility and contrast, making sure steps are used safely and disability access codes are met.

Profile

Profile

Cobbletop

Featuring a bold rustic texture, the Cobbletop is available in a small format and gives the appearance of naturally hewn stone.

Bespoke bollards

Bollards can work as a great complement to your paving design. Available in Natural Stone, we can offer our standard collection of bollard solutions, or we can custom make a bollard to your specification in a colour and finish based on your preferred design.

Tactile paving

Available in UrbanStone or Natural Stone, our tactile paving is a textured ground surface indicator found on footpaths, stairs and train station platforms to assist pedestrians who are visually impaired. We offer the hazard and directional formats as per Australian standards.

Directional tactile paver

For direction or guidance, slot tactile pavers serve a great purpose.

Hazard tactile paver

When you need to clearly indicate the end/edge of a paved area, dot or "blister" style tactile paving is the perfect solution.

Backed by Brickworks

Local expertise. Global quality. Brickworks Building Products are one of Australia's biggest building material manufacturers. With heritage going all the way back to one of Australia's founding brick producers, we're proud of our reputation for design, innovation and sustainability.
